Chapter 357: The Expansion of Sung Jin-Woo's Dominion

The multiverse had never witnessed power as absolute as Sung Jin-Woo's. The True Absolute One, now an entity whose existence transcended all boundaries, turned his focus to ensuring that his dominion over creation was not just unmatched but also eternal.

The Strengthening of the True Absolute One Domain

The True Absolute One Domain, already the largest and most complex realm in existence, expanded further. Its boundaries extended infinitely, creating layers upon layers of dimensional pockets filled with vibrant energies and resources.

Each layer served a distinct purpose:

1. The Core Layer: Where Sung Jin-Woo's throne resided, surrounded by endless rivers of divine light and shadow.

2. The Celestial Layer: Filled with divine beings, including angels, archangels, and celestial creatures, tasked with protecting the realm.

3. The Shadow Abyss Layer: Home to shadow lords and shadowkins, ensuring that Sung Jin-Woo's shadow army remained unparalleled.

4. The Eternal Battlefield Layer: A realm for endless battles, used to train warriors and satisfy the thirst for combat without disrupting peace.

5. The Cosmic Garden Layer: A vast realm filled with divine trees, plants, and lifeforms that thrived under Sung Jin-Woo’s watchful gaze, symbolizing his dominion over creation.

Creation of New Divine Sentinels

To guard the expanding domain, Sung Jin-Woo created Divine Sentinels—beings of immense power, each a fusion of light and shadow. These sentinels were crafted from his divine energy and were entrusted with safeguarding the layers of his domain.

The Seven Heralds: Each herald was imbued with a fraction of Sung Jin-Woo's will, carrying out his commands with unwavering loyalty.

The Infinite Watchers: Centillions of all-seeing beings scattered across realms, ensuring no threat could ever approach undetected.

The Chrono Guardians: Masters of time, these sentinels could rewind or accelerate time in any part of the domain to preserve balance.

Blessing the Multiverse

Sung Jin-Woo extended his blessings to every corner of the multiverse, ensuring peace and prosperity. From his throne, he sent waves of divine energy that rejuvenated dying stars, healed wounded realms, and infused life into barren lands.

1. Reviving Lost Realms: Sung Jin-Woo restored countless realms that had been destroyed during ancient wars.

2. Elevating Mortal Realms: He uplifted realms that lacked mana, bestowing them with divine energy to flourish and evolve.

3. Strengthening Civilizations: Mortal civilizations were granted knowledge of mana-based technologies and were empowered to protect themselves.

A New Threat Emerges

Despite Sung Jin-Woo's overwhelming power, the multiverse was not without danger. From the farthest reaches of the Outer Realms, an unknown force stirred—a force older than the monarchs and rulers, something that even predates the former Absolute Being.

The Primordial Void, a place where the essence of chaos resided, began to leak its influence into the multiverse. Strange anomalies appeared across the realms, disrupting the delicate balance.

Dimensional Rifts: Openings to the Primordial Void that released chaotic energy and grotesque entities.

The Whispering Shadows: Entities that infiltrated minds, spreading chaos and fear among mortals and divine beings alike.

The Fourteenth Clone’s Mission

Sung Jin-Woo’s fourteenth clone, stationed in the Chaos World, immediately sensed the disturbance. Acting swiftly, the clone sent emissaries to investigate the anomalies and report directly to the True Absolute One.

The emissaries discovered that the Primordial Void was awakening, and its chaos threatened to engulf the entire multiverse.

Sung Jin-Woo Prepares for War

From his throne, Sung Jin-Woo gazed into the depths of the Primordial Void, his all-seeing eyes piercing through its chaos. Though his power was unparalleled, he knew this new threat required a meticulous approach.

1. Mobilizing the Divine Armada: Gabriel, Michael, and the Twelve Divine Beings were instructed to prepare their forces for an impending war.

2. Fortifying the Realms: Sung Jin-Woo reinforced the barriers of every realm, ensuring they could withstand the chaos.

3. Creating the Eternal Seal: He began forging a divine artifact capable of sealing the Primordial Void, a task that required the combined power of his five divine jewels.

A Declaration of Hope

As the realms braced for the oncoming storm, Sung Jin-Woo’s voice echoed across the multiverse, resonating in every soul:
"Fear not, for I am the True Absolute One. No darkness shall prevail, and no chaos shall stand unchallenged. I will guard all that exists, for I am the guardian of creation and life."

His words brought hope and unity, rallying mortals and divine beings alike to stand together under his banner.
